Seating wins:*

Best of Boutique

Design Award

Each year, Hospitality Design magazine's Best of Boutique product competition honors new products found on the show floor at HD Boutique Expo to be held in Miami.

This year in 2007 Best of Boutique judges examined more than 80 products and selected 11 winners from all types of product categories, Sandler Seating / Tonon have been awarded twice.

All Best of Boutique winners will be highlighted in the November issue of Hospitality Design magazine and in the HD Boutique show daily.

Please read below for the Press release information on the two winners [SHAPE & MATCHBALL](#)

Press Release

shape

design
Stefan Heiliger

Sandler Seating launches Shape from the new Tonon For Me collection

'**Shape**' designed by Stefan Heiliger is backed up by his passion to always rediscover seating furniture, to reflect and newly interpret ways of living around the subject or seating. The design is sculptural and emotional, not strict nor architectonic. For what would our lives be without beauty and poetry? The furniture is elegant and light, twinned with an extraordinary degree of comfort and functionally-clever ideas. Yet, the objects are always serviceable and appeal equally to both sensuality and reason.

The Shape is an upholstered lounge chair available with chrome plated steel column and base and a 360° automatic self return swivel mechanism.

The Shape and For Me collection from the Tonon is Ideal for contemporary lounges, clubs, bars and the work place, the **For Me** collection is manufactured at the Tonon plant in Manzano, Italy.
