

ENVIRONMENTAL DECLARATION

INCLASS is constantly investing on new solutions to preserve the health and environment. This product line has been designed considering a series of ecological, health and sustainability criteria.

All our products are locally manufactured in our ISO 9001 and ISO 14001 certified production plant in Alicante, Spain. INCLASS is audited annually by Bureau Veritas, a world leader in certification services. ISO 14001 Environmental Management System is globally recognized and trusted.

All the articles are designed minimizing the number of components and maximizing the number of interchangeable pieces. INCLASS gives priority to the use of recyclable and environmentally friendly materials, as well as clean production processes. The company classifies, separates, and recycles all the waste it generates on its production plant under strict certified procedures.

In order to prevent unnecessary waste and to minimize the use of energy and natural resources, INCLASS products are designed to be long-lasting and have a timeless aesthetics, away of short-term trends. The products are tested, at independent laboratories, to comply with strict international quality, safety and durability standards.

INCLASS is fully committed to the manufacture of products that help to create healthier, safer, and more sustainable environments. The company invests and works constantly to replace hazardous or harmful chemicals of its products by new, safer and greener emerging alternatives.

The above stated, demonstrates our full commitment towards health, environment and customer excellence.

MATERIALS

INCLASS is firmly committed to the production of products which are environmentally conscious and help to create safe and healthy spaces. Our company is constantly working on reducing and eliminating hazardous or harmful chemicals in all of our products and processes and in a continuous search for safer and better alternatives that are becoming commercially available. These efforts include, among others:

The use of water-based glues that are solvent free.

Working with suppliers that guarantee their wood comes from sustainable forests.

The use of composed wood parts which are compliant with CARB ATCM Phase II & TSCA Title VI standards of low formaldehyde emissions.

To promote the use of natural fabrics and fabrics labelled with OEKO-TEX® or ECOLABEL certificates.

The use of upholstery foams free from chlorofluorocarbons (CFCs) and hydrochlorofluorocarbons (HCFCs).

When ever the quality standards allow it, the products contain recycled raw materials.

Most of our products can be completely separated for proper recycling.
