360° CONFIGURATOR

ADDED 10TH APRIL 2017

We're very excited to have launched a new product configurator that allow users a 360° view of our products...in any finish combination! Great for anyone wanting to check that a chosen product will suit their colour scheme. At launch, we have approximately half of our products on the configurator and we're working hard to get the remainder added soon. Just look out for the animated banner on product pages to launch the configurator.
