The image shows the interior of a modern cafe or restaurant. In the foreground, there are several square tables with light-colored tops and dark legs, each with a white chair. The tables are arranged in a grid-like pattern. In the background, there is a bar area with a counter, shelves of bottles, and a menu board. The menu board has the word "MENU" at the top and lists items like "CUCINA TRAPISTINO" and "CUCINA". The bar area has the name "Tonino Lamborghini" written on the wall. The overall atmosphere is clean and modern.

# Effective Cleaning by DESIGN

**During these challenging times, cleaning and hygiene have become of paramount importance. With this in mind, we are listing here those products from our collections that can be cleaned with most effective disinfectant cleaning solutions like Virex and diluted bleach without the risk of causing damage or deterioration to the furniture.**

# **Tonon Soft Touch Collection**

**Soft Touch is tough, cleanable urethane injected over a steel frame. The integral foam is waterproof, hygienic, PVC free and soft to the touch. The tear-resistant surface is characterized by a high abrasion resistance, an extremely pleasant feel, high elasticity, low thermal conductivity and maximum comfort. Another strength of integral foam is its easy maintenance: the product can be simply cleaned with warm water and mild soap or alternatively with a wide range of disinfectants, the material is CFC free.**

# Table Tops: Fenix

# Table Tops: Fenix NTM

**Fenix NTM - NTM stands for NanoTech Matte, and has many properties that make the surface an ideal surface for easy cleaning.**

These include:

- **Anti-Bacterial**
- **Mold-Resistant**
- **NSF Certified & meets Greenguard IAQ Standards for Chemical Emission Limits**
- **Highly Resistant to Moisture**
- **Light Scratches can be fixed with Thermal Repair**

# Table Tops: Linoleum

Linoleum has been in production for many years, and the superiority of the product provides an excellent surface for table tops. Made of Linseed Oil, Linoleum has many beneficial properties for sterile and clean environments.

The advantages include:

- Natural Anti-Bacterial Properties
- Very Durable
- All-Natural and Biodegradable
- Made with Renewable Materials
- Does not emit harmful VOCs

A PRACTICE GREENHEALTH PROGRAM

Healthier Hospitals Initiative/Health Care Without Harm has worked with Sandler to develop a list\* of our products that meet the Healthy Interiors criteria. This initiative was developed as a tool to help eliminate hazardous chemical exposures in healthcare settings. Toxic chemicals in some products can migrate into the environment causing potential harm to human health and the world around us. In addition, entities other than hospitals have begun to adopt some of the same protocols as HHI/HWH.

Sandler is working with all of our suppliers to offer environmentally safe and in many cases, disinfectable furnishing solutions for our specifiers. Please click below to see the latest list, which will be updated periodically. Contact your local Sandler Sales Representative or our Customer Service Department for assistance with appropriate specification of HHI/HWH compliant projects.

SANDLER

A photograph of a modern restaurant interior. The scene is brightly lit, featuring several round tables with white tops and black chairs with wooden legs. In the background, there is a dark grey wall with a menu board and a glass display case filled with bottles. The text "Thank you!" is overlaid in the center of the image.

Thank you!
