Chicago

A white, modern, high-back chair with a black headrest and a black floor lamp with a black shade. The chair is positioned near a large window.

A white, modern, round ottoman with a chrome base, positioned near a large window.

A white, modern sofa with a green, textured pillow. A round, chrome coffee table is positioned in front of it, holding a bowl of fruit and a vase with a white flower.

A round, chrome coffee table with a glass top, holding a bowl of fruit and a vase with a white flower. The table is positioned in front of a white sofa.

Two pillows: a white, rectangular pillow and a brown, textured, fringed pillow, both resting on a light-colored rug.

A tall, narrow window with a black frame, providing a view of a forest and a lake.

A large, wide window with a black frame, providing a panoramic view of a lake and forest.

Cinema

A large, modular wooden bookshelf system with a grid of cubbies. The shelves are filled with books, organized by color and size. A window is built into the center of the bookshelf structure. The books are arranged in a way that creates a colorful and textured display.

A window integrated into the bookshelf structure, providing a view of the outdoors. The window is framed by the wooden bookshelf and is currently closed.

A large window on the right side of the room, showing a view of bare trees outside. The window is set into a concrete wall and has a white frame.

A dark grey, upholstered armchair with a matching ottoman. The chair has a modern design with a metal frame and armrests. It is positioned in the foreground, facing towards the bookshelf.

A white radiator mounted on the wall under the window on the right. The radiator is a simple, rectangular design with a modern aesthetic.

A small, rectangular wooden step or platform made of light-colored wood, positioned on the floor near the radiator.

A floor made of perforated metal with a grid pattern of small holes. The floor is light-colored and has a reflective surface.

ENVIRONMENTAL STATEMENT

Sandler Seating is committed to achieving good environmental practice and operating in a sustainable manner.

We wholly support and comply with or exceed the requirements of current environmental legislation and codes of practice.

We seek to minimise our waste and then reuse or recycle as much of it as possible.

We minimise energy and water usage in our buildings, vehicles and processes in order to conserve supplies, and minimise our consumption of natural resources, especially where they are non-renewable.

We operate and maintain company vehicles (where appropriate) with due regard to environmental issues as far as reasonably practical and encourage the use of alternative means of transport and car sharing as appropriate.

We hope to continuously improve in respect of air, water, noise and light pollution from our premises and reduce any impacts from our operations on the environment and local community.

We purchase products and services that are the least damaging to the environment and encourage others to do the same where possible.

We assess the environmental impact of any new processes or products we intend to introduce in advance.

All our aluminum and steel frames can be melted down and recycled.

Both our rubber glides and standard fabric ranges are also recyclable.

We aim to reduce our environmental impact and improve our environmental performance as an integral part of our business strategy.

It is our priority to encourage our customers, suppliers and all business associates to do the same.
